

# ALLES URBAN

Simply lift and roll the urban-k anywhere with a flick of the wrist. So you can always offer customers, guests or passers-by a comfortable place to sit where they need it.

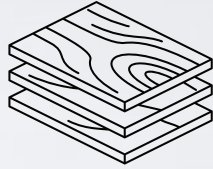

The award-winning design of the urban-K ensures that the bench fits into any ambience - both indoors and outdoors. The high quality materials are weather-resistant and solidly processed, so that the urban-K defies wind and weather and lasts a long time.

 **46** <sup>kg</sup> total weight

 **8** <sup>kg</sup> lever weight

## The Wood

The wood we use for the bench is extremely hard. The Black Locust „Robinia“ is a highly durable, organic wood product, that does not require chemical treatment. Available in damped or undamped and is FSC certified
